'Online Auction System Facilitating Flexible Terms'

**REQUEST FOR RECONSIDERATION OF DECISION
ON PETITION TO MAKE SPECIAL UNDER MPEP 708.02 VIII**

1. Applicant and petitioner respectfully acknowledges the Decision On Petition To Make Special dated 27 December 2001 in which a petition under MPEP 708.02 VIII requesting accelerated examination of the present application was DENIED because:

Applicant's submission is deficient in that it does not clearly comply with (B) above. With respect to (B), no statement is found indicating that applicant would make an election without traverse if the Office determines that all claims presented are not obviously directed to a single invention. Although only one independent claim is currently presented, this does not preclude restriction or the filing of a preliminary amendment with additional claims.

2. Petitioner respectfully submits that a statement 'indicating that applicant would make an election without traverse if the Office determines that all claims presented are not obviously directed to a single invention' for inclusion in the present Petition To Make Special Under MPEP 78.02 VIII is attached hereto.

3. Petitioner respectfully submits that the statement attached hereto supplies the deficiency in the present petition identified as the sole grounds for denial of this petition and hence overcomes all the grounds for denial of said petition for which reason reconsideration of the decision on this petition is respectfully requested as is granting of said petition.

Respectfully yours,

Peter Gibson, Reg. #34,605
